

PLACE VALUE DESKTOP CHART

thousandths	thousandths	thousandths	thousandths
hundredths	hundredths	hundredths	hundredths
tenths	tenths	tenths	tenths
ones	ones	ones	ones
tens	tens	tens	tens
100s	100s	100s	100s
1000s	1000s	1000s	1000s
10 000s	10 000s	10 000s	10 000s
100 000s	100 000s	100 000s	100 000s
1 000 000s	1 000 000s	1 000 000s	1 000 000s
10 000 000s	10 000 000s	10 000 000s	10 000 000s
100 000 000s	100 000 000s	100 000 000s	100 000 000s

The individual desk top chart is a support document for students who find place value difficult. Cut out the individual place value cards and have students paste it in their mathematics book or on their desk top and allow students to use them when sorting out the places and value of numbers in a place value task . It helps students to read numbers. Link the individual place value chart with the classroom place value chart that was used in the Place value PD that you attended
